Carbon Design System. By IBM. Carbon is the design system for IBM Cloud products. It is a series of individual styles, components, and guidelines used for creating unified UI.

Examples - Style Guides

Design patterns help you solve commonly-occurring problems in software design. But you can't just find a pattern and copy it into your program, the way you can with off-the-shelf functions or libraries. A pattern is not a specific piece of code, but a general concept for solving a particular problem.
