Graphviz - Graph Visualization Software Welcome to Graphviz What is Graphviz? Graphviz is open source graph visualization software. Graph visualization is a way of representing structural information as diagrams of abstract graphs and networks.

Graphviz - Graph Visualization Software

Visualization or visualisation (see spelling differences) is any technique for creating images, diagrams, or animations to communicate a message. Visualization through visual imagery has been an effective way to communicate both abstract and concrete ideas since the dawn of humanity.

Visualization (graphics) - Wikipedia

Good readers construct mental images as they read a text. By using prior knowledge and background experiences, readers connect the author's writing with a personal picture. Through guided visualization, students learn how to create mental pictures as they read.
